

Assertive Community Treatment (ACT)

ACT is a community based service that provides high quality, coordinated, and comprehensive services to individuals who are experiencing serious mental illness using a multidisciplinary team approach.

The University of Iowa's IMPACT Team will be providing an ACT Basics training for any agency who wishes to gain more information about the ACT program. The training will be split into two sessions, each an hour long.

The first session will be on May 27, 2016 at 10am and will be an overview of what ACT is and how it works along with a brief overview of the development of ACT in Iowa.

The second session will be held on June 3, 2016 at 10am and will cover team composition, program coordination and communication, critical components and lessons learned from previous team startups. Both webinars will be recorded and available for playback. Please forward this invitation to other organizations or individuals that may be interested.
